

EXPERTS OF NATURAL RESVERATROL & DERIVATIVES FROM UPCYCLED FRENCH VINES

PRODUCER OF NATURAL ACTIVE INGREDIENTS

French family company

Since **1998**, we have been developing and producing **natural active ingredients** from **grapevine extracts** standardized in Resveratrol monomers and oligomers for cosmetic, nutricosmetic and nutraceutical markets.

We have **patented** a unique **extraction process** of Resveratrol and its derivatives from vine.

Our values are based on **innovation** and **quality**, driven by a family spirit to give the best service to our customers.

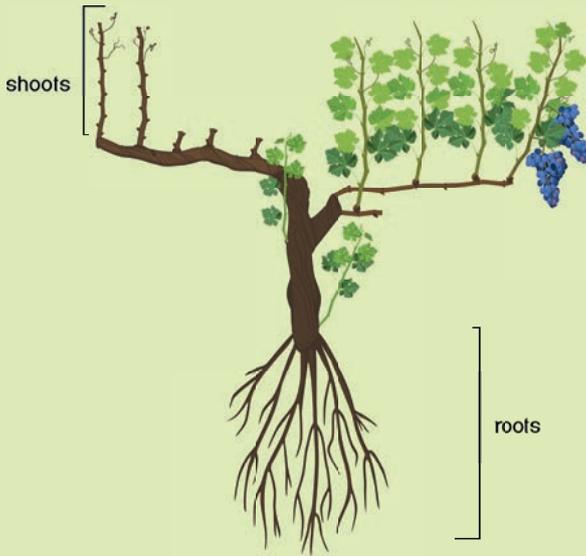

Upcycled French vines

The raw materials used to produce our active ingredients are harvested exclusively in the famous **French vineyards**. We use the renewable part of the grapevines:

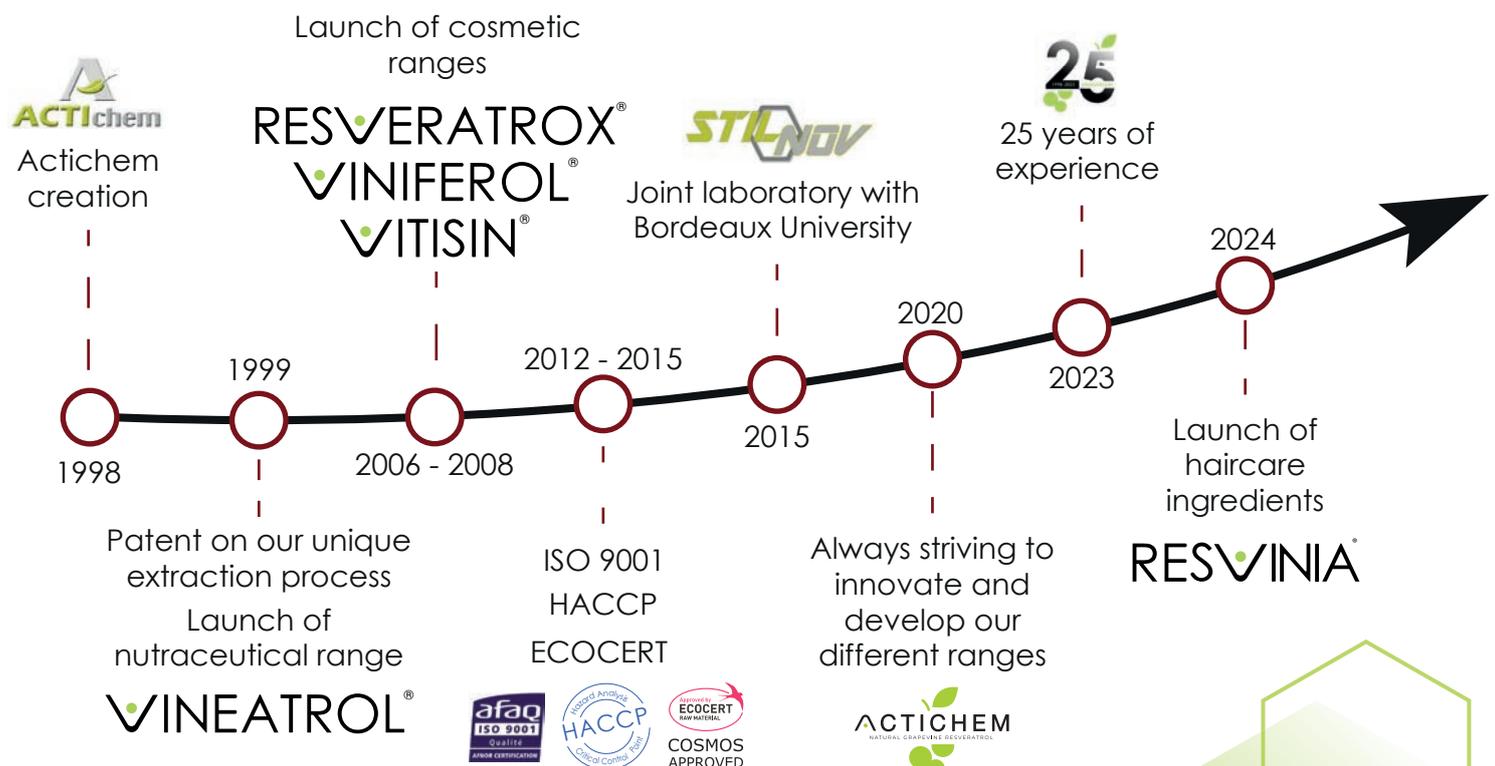

- **vine shoots**, pruned every winter
- **vine roots**, harvested during natural vine renewal

Our high quality and sustainably produced ingredients are manufactured in France using our **unique know-how**.

We manage the harvesting and extraction stages. Manufacturing and control are carried out locally, allowing for **real traceability** and **quality assurance**.

Experts of natural Resveratrol since 1998

HEALTHY AGING

ANTI-POLLUTION ACTIVITY

WRINKLE REDUCTION

MATURE SKIN REJUVENATION

RESVERATROX[®]

Launched in 2006 and presented during the IFSCC Congress in Osaka, Japan.

Active molecules

Resveratrol monomers & oligomers

Cosmetics
Skincare

SKIN LIGHTENING

BRIGHTNESS

REDUCTION OF HYPERPIGMENTATION

VITISIN[®]

Patented and launched for its tyrosinase activity inhibition in 2008.

Active molecules

Vitisin A & Vitisin B (2 Resveratrol derivatives)

Cosmetics
Skincare

PREVENTION OF HAIR LOSS

SCALP CARE EFFECT

STIMULATION OF HAIR GROWTH

ANTI-POLLUTION PROPERTIES

RESVINIA[®]

Presented during the In-Cosmetics Global 2024 in Paris, France.

Active molecules

Resveratrol & *epsilon*-viniferin

Cosmetics
Haircare

SLIMMING

FIRMNESS

SMOOTH SKIN

VINIFEROL[®]

Presented in 2006 during the international conference on Polyphenols in Winnipeg, Canada.

Active molecule

epsilon-Viniferin (Resveratrol derivative)

Cosmetics
Bodycare

HEALTHY AGING

SKIN BEAUTY

WEIGHT MANAGEMENT

VINEATROL[®]

Launched in 1999, one year after the patent on extraction process.

Active molecules

Resveratrol, *epsilon*-Viniferin & Resveratrol derivatives

Nutricosmetics
Dietary supplement

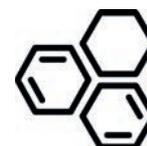

We can bring you...

Expertise in raw material sourcing and management

Customized projects with grapevines from specific vineyards

Guaranteed content in natural Resveratrol & derivatives

Customized standardizations of our ingredients

Efficacy studies and various benefits for each ingredient

Continual innovation & R&D

Unique know-how in identification and quantification of Resveratrol derivatives

Over 25 years of experience

Proprietary patents for extraction process and biological activities
